SuSustainable tropical building deSign - Cairns Regional Council

Maximise opportunities for public and active transport access to the building. The main principles of passive design for buildings in the

tropics are summarised below. • Avoid heat gain
- Orient the building to reduce exposure to midday sun, particularly summer sun. - Use materials with low thermal mass (as a general rule).

CompTIA Security+ Certification Exam

Objectives

If a candidate has a question as to whether study materials are considered unauthorized (aka “brain dumps”), he/she should contact CompTIA at examsecurity@comptia.org to confirm.

PLEASE NOTE The lists of examples provided in bulleted format are not exhaustive lists. Other examples of technologies, processes, or tasks pertaining to each objective may also be ...
