Observing Teacher Identities through Video Analysis Amy Vetter 2015-09-25 Teaching is often seen as an identity process, with teachers constructing and enacting their identities through daily interactions with students, parents and colleagues. This volume explores how conducting video analysis helps teachers gain valuable perspectives on their own identities and improve classroom practice over time. This form of interactional awareness fosters reflection and action on creating classroom conditions that encourage equitable learning. The volume follows preservice English teachers as they examine video records of their practice during student teaching, and how the evidence impacts their development as literacy teachers of diverse adolescents. By applying an analytic framework to video analysis, the authors demonstrate how novice teachers use positioning theory to transform their own identity performance in the classroom. Education scholars, teachers and professional developers will greatly benefit from this unique perspective on teacher identity work.

Scarlet Pimpernel Emmuska Orczy 2018-02-20 Wer ist Scarlet Pimpernel? Wer verbirgt sich hinter dem Zeichen jener unscheinbaren Blume, der scharlachroten Pimpernelle? Die englische Gesellschaft am Londoner Hof hat den geheimnisvollen Unbekannten zu ihrem Helden erkoren, die Damen träumen von ihm, die Männer bewundern ihn, und einige junge Adlige folgen ihm blindlings. Die Revolutionäre im Paris von 1792 dagegen fürchten ihn; sie hassen das scharlachrote Siegel, das Zeichen des Scarlet Pimpernel, verkündet es ihnen doch, daß es dem listigen Engländer wieder einmal gelungen ist, bedrohte Aristokraten auf abenteuerliche Weise aus Paris nach England zu schmuggeln und so vor der Guillotine zu retten. Sie haben sich geschworen, Scarlet Pimpernel zu entlarven, ihn zu fangen und zu verurteilen. Für dieses Unternehmen scheinen sie auch eine einflußreiche Verbündete gefunden zu haben: die schöne Marguerite Blakeney, die aus Paris stammt und in London unglücklich verheiratet ist. Aber Scarlet Pimpernel geht seinen Häschern nicht in die Falle ... Waghalsige Abenteuer, raffinierte Intrigen und eine zauberhafte Liebesgeschichte - der Roman von Baroness Orczy ist eine unglaublich spannende Lektüre.

Transforming Talk into Text—Argument Writing, Inquiry, and Discussion, Grades 6-12 Thomas M. McCann 2014 Author Thomas McCann invites readers to rethink their approach to teaching writing by capitalizing on students' instinctive desire to talk. Drawing on extensive classroom research, he shows teachers how to craft class discussions that build students' skills of analysis, problem-solving, and argumentation as a

means of improving student writing. McCann demonstrates how authentic discussions immerse learners in practices that become important when they write. Chapters feature portraits of teachers at work, including transcripts that reveal patterns of talk across a set of lessons. Interviews with the teachers and samples of student writing afford readers a deeper understanding of process. Students also report on how classroom discussions supported their effort to produce persuasive, argument-driven essays. Book Features: A focus on "the thinking behind the practice," as opposed to a collection of lesson ideas. Connections to important elements from the Common Core State Standards, especially arguments writing. Examples of students at work with examples of the writing that emerges from their discussions. Portraits of skilled teachers as they promote inquiry and sequence and facilitate discussions. Appendices with problem-based scenarios, interview questions for students and teachers, samples of debatable cases in the news, and more. "In this important book, Tom McCann has given us not only the admonition to change, but the details about what effective change must be and what it looks like, evidence that it works effectively, and details about how to bring it to pass." —From the Foreword by George Hillocks, Jr., Professor Emeritus, Department of English, University of Chicago. "For a professional book to have an impact on the field, it needs to address a perceived need. Writing arguments for Common Core performance assessments is a HUGE need right now that this book helps address." —Carol Jago, associate director, California Reading and Literature Project, UCLA.

17,000 Classroom Visits Can't Be Wrong John V. Antonetti 2015-02-20
"Most educators are skilled at planning instruction and determining what they will do during the course of a lesson. However, to truly engage students in worthwhile, rigorous cognition, a profound shift is necessary: a shift in emphasis from teaching to learning. Put another way, we know that whoever is doing the work is also doing the learning—and in most classrooms, teachers are working much too hard. Authors John V. Antonetti and James R. Garver are the designers of the Look 2 Learning model of classroom walkthroughs. They've visited more than 17,000 classrooms—examining a variety of teaching and learning conditions,

talking to students, examining their work, and determining their levels of thinking and engagement. From this vast set of data, they've drawn salient lessons that provide valuable insight into how to smooth the transition from simply planning instruction to designing high-quality student work. The lessons John and Jim have learned from their 17,000 (and counting) classroom visits can't be wrong. They share those lessons in this book, along with stories of successful practice and practical tools ready for immediate classroom application. The authors also provide opportunities for reflection and closure designed to help you consider (or reconsider) your current beliefs and practices. Throughout, you will hear the voices of John and Jim—and the thousands of students they met—as they provide a map for shifting the classroom dynamic from teaching to learning."

The Better Writing Breakthrough Eleanor Dougherty 2016-03-04 Every teacher knows the challenge of trying to engage reluctant readers and struggling writers—students whose typical response to a writing prompt is a few sentence fragments scribbled on a sheet of paper followed by an elaborate shrug of the shoulders. The best way to engage less confident readers and writers is to give them something powerful to think about. The Discourse and Writing Cycle explores writing as a means to focus student thinking, fuel deeper learning, and build complex understanding in English, social studies, math, and science. This field-tested approach from well-respected experts Eleanor Dougherty, Laura Billings, and Terry Roberts is designed for use in grades 4–12. The book explores the three interrelated sequences of the cycle—the Discourse Sequence, the Transition to Writing Sequence, and the Writing Sequence—and includes classroom examples and sample lesson plans from across the content areas. The cycle will inspire you as a teacher and help you to inspire your students to write with confidence and competence. "How often we dim or extinguish the creative sparks that can come from good writing! William Butler Yeats proclaimed that 'Education is not the filling of a pail, but the lighting of a fire.' This book lights the fire for the teaching of writing."
—John Hattie, author of the Visible Learning books
