Modelling the Messerschmitt Bf 110 Brett Green

2012-02-20 The Messerschmitt Bf 110 was undoubtedly one of the most significant aircraft of World War II. Despite suffering setbacks in the summer of 1940 at the hands of the RAF, it continued to be used effectively in other theatres and roles until the last days of the war, particularly as a night fighter against RAF Bomber Command's strategic bombing campaign over the Reich. This title shows you how to correct and convert basic 1/48-scale kits of the Bf 110 into many different variants, using a wide selection of aftermarket detail sets, conversions, accessories and decals for both day and night fighter schemes.

The Politics of Service Daniel Maul 2021-11-22 Das Buch ist die erste umfassende Geschichte des American Friends Service Committee (AFSC), der zentralen Hilfsorganisation der amerikanischen Quäker während der ersten Hälfte des 20. Jahrhunderts. Mit Hilfe eines transnationalen Ansatzes wirft die Studie Licht auf eine bedeutende und bislang wenig beachtete Episode in der Geschichte internationaler humanitärer Hilfe. Durch die Perspektive der amerikanischen Hilfe werden dabei Spannungen deutlich, die den humanitären Sektor im breiteren Sinn kennzeichnen. Vor dem Hintergrund der großen Hilfsaktionen des AFSC vom Ersten Weltkrieg über Deutschland und die Sowjetunion bis hin zum Spanischen Bürgerkrieg behandelt die Studie das AFSC zwischen ihrem Charakter als spezifisch US-amerikanische Hilfsorganisation, die gleichzeitig als Teil eines transnationalen religiösen Netzwerks agierte. Durch den Blick auf das AFSC öffnet sich darüber hinaus eine Perspektive auf übergreifende Fragen, welche die Entwicklung des humanitären Sektors während der ersten Hälfte des 20. Jahrhunderts prägten: Von der Professionalisierung und dem Entstehen eines „humanitarian marketplace“, über die Herausbildung humanitärer Techniken im Umgang mit Medien, Spendern und Empfängern von Hilfe bis hin zum komplexen und sich wandelnden Verhältnis von religiösen und säkularen Elementen.

The Compact Timeline of Aviation History Anthony A. Evans 2008 'The Compact Timeline of Aviation History' encompasses the entire history of flight, from the days of legends, balloons and gliders to the latest high-tech aircraft.

Flying Wings & Radical Things Anthony Chong 2016-06-15 John K. "Jack" Northrop and the company he founded in 1939, Northrop Aircraft, Inc., will be forever linked with the giant futuristic Flying Wings of the 1940s. But those iconic designs were not the only ideas to spring from the mind of this pioneering visionary and the innovative engineers who followed him. Many piston-powered and turbojet concepts, both conventional and radical in shape and purpose, were proposed and developed over the company's proud fifty-five year history. This book unveils Northrop's once-secret radical designs, many for the first time, with never-before-published drawings, models, and photos of such novel concepts as a ship-based vertical take-off and landing fighter, a supersonic intercontinental cruise missile, a rocket-boosted jet spaceplane trainer, and a radical combination truck/aircraft/boat cargo vehicle. Much of this material has only recently been declassified. Here for the first time is the untold story of Northrop's rare, unique, and formerly super-secret aircraft and spacecraft of the future. Featuring stunning original factory artwork, technical drawings, and never-before-seen photographs, this book shows an amazing array of radical high-performance aircraft concepts from Jack Northrop and his team of brilliant and innovative engineers.

The Second Attack on Pearl Harbor Steve Horn 2005 He also discusses a Japanese plan to bomb the Panama Canal that was abandoned when the war ended." "Horn's chronicling of these mostly unknown plans and operations adds an important dimension to the historical record."--Jacket.

The United States Marine Corps in Books and the Performing Arts Richard L. Hemenez 2001 This enormous annotated bibliography of the Marine Corps details fiction, nonfiction, stage, poetry, music, movie, and television references to the Marine Corps. It covers over 2,500 books, 500-plus Hollywood films, 80 made-for-television movies, 100 fictional television programs, articles, parts of books, dissertations, chronologies, dictionaries, and oral histories. Beginning with an introduction that focuses on the history of the Marine Corps, this work serves as research into such subjects as duty stations, ships, posts, heroes and their heroics, uniforms, boot camp, and equipment. Listed in the film section are over 100 former Marines who are film and television actors. Reflecting the comprehensiveness of the book, there are over 15,000 subject headings (totaling over 25,000 indexed items). The researcher (and the research librarian) will appreciate the depth and the breadth of the book.

Fliegen R. G. Grant 2008

Cassada James Salter 2015-02-16 Ein amerikanischer Air-Force-Stützpunkt im Deutschland der fünfziger Jahre: zwei Düsenjägerpiloten, in Marseille gestartet, versuchen bei schlechtem Wetter zu landen. Die niedrige Wolkendecke verhindert einen präzisen Anflug, den beiden geht der Treibstoff aus und sie geraten in eine verzweifelte Lage. Captain Isbell und Lieutenant Cassada sind Freunde und Rivalen zugleich, denn beide lieben sie dieselbe Frau und müssen sich nun trotzdem blind aufeinander verlassen.
