*Falsche Freunde* Andreas Pecar  
2015-08-17 Dass die Aufklärung die Gründungszeit der Moderne gewesen sei, wird immer wieder behauptet, so jüngst nach den Pariser Attentaten gegen »Charlie Hebdo«. Doch stimmt das wirklich? Haben die Aufklärer unsere heutigen Vorstellungen von Demokratie und Toleranz, von Menschenrechten, von der Gleichheit zwischen den Geschlechtern oder zwischen den Völkern tatsächlich vertreten? Oder haben sie, wie prominente Aufklärungskritiker behaupten, den modernen Rassismus, Sexismus und Kolonialismus erfunden? »Falsche Freunde« ist eine Streitschrift, die mit der gängigen Sicht aufräumt, wonach die Aufklärung die modernen westlichen Wertvorstellungen hervorgebracht habe. In sechs Kapiteln etwa zu den Toleranz-, Rasse- oder Geschlechterkonzeptionen illustrieren Geistesgrößen bieten die beiden Autoren eine erfrischend neue Lektüre berühmter Schriften an. Sie zeigen, dass die Aufklärung des 18. Jh. uns viel fremder ist als wir gewöhnlich annehmen – aber auch viel überraschender.

*Priest, Politician, Collaborator*  
James Mace Ward 2013-04-15 In *Priest,*

*Priest, Politician, Collaborator*, James Mace Ward offers the first comprehensive and scholarly English-language biography of the Catholic priest and Slovak nationalist Jozef Tiso (1887–1947). The first president of an independent Slovakia, established as a satellite of Nazi Germany, Tiso was ultimately hanged for treason and (in effect) crimes against humanity by a postwar reunified Czechoslovakia. Drawing on extensive archival research, Ward portrays Tiso as a devoutly religious man who came to privilege the maintenance of a Slovak state over all other concerns, helping thus to condemn Slovak Jewry to destruction. Ward, however, refuses to reduce Tiso to a mere opportunist, portraying him also as a man of principle and a victim of international circumstances. This potent mix, combined with an almost epic ability to deny the consequences of his own actions, ultimately led to Tiso's undoing. Tiso began his career as a fervent priest seeking to defend the church and pursue social justice within the Kingdom of Hungary. With the breakup of Austria-Hungary in 1918 and the creation of a Czechoslovak Republic, these missions then fused with a parochial Slovak nationalist agenda, a complex process

that is the core narrative of the book. Ward presents the strongest case yet for Tiso's heavy responsibility in the Holocaust, crimes that he investigates as an outcome of the interplay between Tiso's lifelong pattern of collaboration and the murderous international politics of Hitler's Europe. To this day memories of Tiso divide opinion within Slovakia, burdening the country's efforts to come to terms with its own history. As portrayed in this masterful biography, Tiso's life not only illuminates the history of a small state but also supplies a missing piece of the larger puzzle that was interwar and wartime Europe.

**Oral History of Germans Taken To The USSR With Their Obsolete DFS 346-Part 3** David Myhra PhD 2013-09-28 This is an oral history of several dozens of German aviation designers and engineers that were taken to the Soviet Union in October 1946 along with their DFS 346. The information contained here-in has never been made public until now. Dr Myhra traveled to all the places mentioned and with the assistance of language interpreters Margarita Reck of Salem-Neufrach, West Germany and Gerhard Hopf of Naples, FL, was able to communicate with the German-speaking engineers and designers. These are the unedited transcriptions of the actual conversations. Very interesting material! Enjoy all 5

parts of this rare and informative conversation collection!

**Law, Policy, and Practice on China's Periphery** Pitman B. Potter 2010-09-13 This book examines the Chinese government's policies and practices for relations with the Inner Periphery areas of Tibet, Xinjiang, and Inner Mongolia, and the Outer Periphery areas of Hong Kong and Taiwan focusing on themes of political authority, socio-cultural relations, and economic development. China's history may be seen as one of managing the geographic periphery surrounding China proper. Successive imperial, republican, and communist governments have struggled to maintain sovereignty over the regions surrounding the great river valleys of China. The importance of the periphery is no less real today, concerns over national security, access to natural resources, and long-held concerns about relations between Han and other ethnic groups continue to dominate Chinese law, policy and practice regarding governance in the Inner Periphery regions of Inner Mongolia, Xinjiang, and Tibet. In the Outer Periphery, Beijing sees engagement with the outside world (particularly the West) as inextricably tied to Chinese sovereignty over former foreign colonies of Hong Kong and Taiwan. Using the case study of national integration to indicate how policies

are articulated and implemented through law and political-legal institutions, this book will be of interest to students and scholars of the peripheral regions. It will also appeal to academic and policy communities interested in legal reform in China

*You've Got Ketchup on Your Muumuu* Eugene Ehrlich 2014-01-28 From one of America's top wordsmiths, a lively survey of words from abroad that make English a truly international language. With dry wit and remarkable erudition, Eugene Ehrlich's *You've Got Ketchup on Your Muumuu* takes us on an eye-opening tour of our ever-changing language, showing us how English has, throughout its history, seamlessly sewn words from other languages into its original fabric. The language we call our own has in fact been culled from the languages of ancient invaders, such as the Romans, the Angles, the Saxons, the Jutes, and the French. Ehrlich's comprehensive research and vast lingual experience bring to light the origins of some of our most popular and well-used words. For example,

graffiti is shown to come from the Italian word meaning "scratches." The word for one of our favorite French pastries, éclair, means "lightning flash." And ketchup comes from the Chinese Ke-Jap, which means "fish sauce." Ehrlich illuminates the origins, purposes, and meanings of once-foreign words that have become part of the rich texture of our language.

#### Living in Indigenous Sovereignty

Elizabeth Carlson-Manathara  
2021-05-10T00:00:00Z In the last decade, the relationship between settler Canadians and Indigenous Peoples has been highlighted by the Truth and Reconciliation Commission, the National Inquiry into Missing and Murdered Indigenous Women and Girls, the Idle No More movement, the Wet'suwet'en struggle against pipeline development and other Indigenous-led struggles for Indigenous sovereignty and decolonization. Increasing numbers of Canadians are beginning to recognize how settler colonialism continues to shape relationships on these lands. With this recognition comes the question many settler Canadians are now asking, what can I do? Living in Indigenous Sovereignty lifts up the wisdom of Indigenous scholars, activists and knowledge keepers who speak pointedly to what they are asking of non-Indigenous people. It also shares the experiences of thirteen white settler Canadians who

are deeply engaged in solidarity work with Indigenous Peoples. Together, these stories offer inspiration and guidance for settler Canadians who wish to live honourably in relationship with Indigenous Peoples, laws and lands. If Canadians truly want to achieve this goal, Carlson and Rowe argue, they will pursue a reorientation of their lives toward "living in Indigenous sovereignty" – living in an awareness that these are Indigenous lands, containing relationships, laws, protocols, stories, obligations and opportunities that have been understood and practised by Indigenous peoples since time immemorial. Collectively, these stories will help settler Canadians understand what transformations we must undertake if we are to fundamentally shift our current relations and find a new way forward, together.

Analysis and Management of Animal Populations Byron K. Williams 2002-05  
Analysis and Management of Animal Populations deals with the processes involved in making informed decisions about the management of animal populations. It covers the modeling of population responses to management actions, the estimation of quantities needed in the modeling effort, and the application of these estimates and models to the development of sound management decisions. The book synthesizes and integrates in a single volume the methods associated with these themes, as they apply to ecological assessment and conservation of animal populations. Integrates population modeling, parameter estimation and decision-theoretic approaches to management in a single, cohesive framework Provides authoritative, state-of-the-art descriptions of quantitative approaches to modeling, estimation and decision-making Emphasizes the

role of mathematical modeling in the conduct of science and management Utilizes a unifying biological context, consistent mathematical notation, and numerous biological examples

Air War Over East Yorkshire in World War II Paul Bright 2005 In most accounts of the air war over Britain in summer 1940, the events over East Yorkshire are mentioned only in passing, yet it was there, on August 20th, that the first enemy aircraft fell to the guns of a Polish fighter squadron in the RAF, less than a mile from where these words are being written. It was also where the 'north-east town', as Hull was identified in the news bulletins of the day, suffered its prolonged agony under the bombs of the Luftwaffe. Indeed, the very last British civilians to die as a direct result of Luftwaffe bombs in World War II were killed in Hull on March 17th, 1945. As the home of much of the RAF's night-bombing force, East Yorkshire was also frequently the scene of Luftwaffe night intruder raids. This book, based on years of in-depth research into primary sources, personal accounts and experiences, reveals many new facts and gives long-overdue recognition to the events and people who fought, lived and all too often, died, in East Yorkshire during 1939-1945.

*Eine kleine Geschichte des Bergsteigens* Malte Roper 2021-04-20  
The World War Harry S. Canfield 1919  
Crime and Deviance in Canada

Christopher Ray McCormick 2005 This unique and timely reader brings together twenty-four of the very best and most controversial readings on the history of crime, deviance, and criminal justice in Canada. This text is ideal for use in courses on introductory criminology, crime and deviance, or the Canadian justice system, particularly those with an

historical component. The theme of power relations is a very strong, unifying element--that is, relations of gender, social class, ethnicity, and age. Through such topics as prostitution, prohibition, youth courts, and the regulation of sexuality, we can trace these relations of power and how they link to the definition of crime in society.

*China, Africa and Responsible International Engagement* Yanzhuo Xu 2017-10-06 China's increasing involvement in Africa is a controversial and hotly debated issue. On the one hand, China has brought significant economic and political opportunities to the continent with large amounts of investment and infrastructure. On the other hand, however, China's interests in Africa - including international strategy for multipolarity, a boom in China-Africa trade, and a strategic focus on energy - have been challenged as a form of neo-colonialism with claims that support for authoritarian governments has come at the expense of human rights, the environment and good governance. This book analyses China's responsibility in Africa through the lens of good governance, China's African policy, policy implementation, feedback from host countries, and feedback from international society. Arguing for a new framework for evaluating China-Africa engagement, it looks at four countries - Sudan (South Sudan), Nigeria, South Africa and Ethiopia, all of which represent typical features of China-Africa relations - to test China's impact on the country and to analyse the factors in Africa that affect China's ability to shoulder responsibility. It proves that China's responsibility in Africa is affected by both the Chinese and African environments and that China's

positive or negative impacts on the host African countries are largely constrained by the political and economic situation within the host state. Containing information from first-hand interviews with African officials, officials from China's Ministry of Foreign Affairs, employees from Chinese State-owned enterprises who have been assigned to Africa, and Chinese self-employers in Africa, and using fieldwork from three African countries, this book will be of significant interest to students and scholars of African and Chinese Politics, International Relations and Development.

*Nonconventional Limit Theorems And Random Dynamics* Kifer Yuri 2018-04-05

The book is devoted to limit theorems for nonconventional sums and arrays. Asymptotic behavior of such sums were first studied in ergodic theory but recently it turned out that main limit theorems of probability theory, such as central, local and Poisson

limit theorems can also be obtained for such expressions. In order to obtain sufficiently general local limit theorem, we develop also thermodynamic formalism type results for random complex operators, which is one of the novelties of the book.

Contents: Nonconventional Limit Theorems: Stein's Method for Nonconventional Sums Local Limit Theorem Nonconventional Arrays Random Transformations Thermodynamic Formalism for Random Complex Operators: Ruelle–Perron–Frobenius Theorem via Cone Contractions Application to Random Locally Expanding Covering Maps Pressure, Asymptotic Variance and Complex Gibbs Measures Application to Random Complex Integral Operators Fiberwise Limit Theorems Readership: Advanced graduate students and researchers in probability theory and stochastic processes and dynamical systems and ergodic theory. Keywords: Limit Theorems; Nonconventional Sums; Nonconventional Arrays; Stochastic Processes; Dynamical Systems; Stein's Method; Martingale Approximation; Thermodynamic Formalism; Strong Law of Large Numbers; Central; Local and Poisson Limit Theorems

Review: Key Features: The results in the book are new and never appeared before, Prof. Yuri Kifer is a well-known researcher in probability and dynamical systems, he published several books and more than 130 papers and he initiated the research on nonconventional limit theorems in the last decade

### **The Ghost in General Patton's Third Army** Eugene G. Schulz 2012-10-11

Eugene G. Schulz was born on a farm in Clintonville, Wisconsin in 1923. He graduated from high school in May, 1941, and worked on his fathers farm and at a truck manufacturing plant until he was drafted into the army in January 1943. Schulz received his basic training at Camp Young,

California at the Desert Training Center, and later at Camp Campbell, Kentucky. He was assigned to the IV Armored Corps (later named the XX Corps) where he was a typist in the G-3 Section. His duties included the typing of battle orders developed by Colonel W. B. Griffith, the G-3 of XX Corps Headquarters. The XX Corps sailed to England in February 1944 on the Queen Mary with 16,000 soldiers on board, completing the voyage in five days. After final training in England, the XX Corps landed on Utah Beach in Normandy on D+46. His unit was attached to General Pattons Third Army and spearheaded the drive across France, through Germany and into Austria where they met the Russian Army on V-E Day. Schulz was awarded the Bronze Star medal when the war ended. He served in the Army of Occupation in Germany, then returned to the States and was discharged on December 1, 1945. He enrolled at the University of Wisconsin Madison taking advantage of the GI Bill of Rights, and earning Bachelors and Masters degrees in Business Administration. Schulz met his wife, Eleanore, at the University and they were married in 1949. Schulz worked as an investment research officer at the Northwestern Mutual Life Insurance Company in Milwaukee for 36 years. The Schulzs have been retired since 1988 and continue to live in Milwaukee. They are world travelers. They have five sons, all married, and sixteen grandchildren.
